EDUCATION

Minerva University **San Francisco, CA**

Majors: B.S. Computational Sciences and Business

- Accepted into the world's most innovative university (WURI, 2024), with an acceptance rate of less than 1%
- Coursework: Market Dynamics & Product Analytics, Software Development, Modeling Complex Systems

PROFESSIONAL EXPERIENCE

Arc Aero (AeroTech) **San Francisco, CA**

Technical Product Manager Intern *June 2026 – September 2026*

- Led discovery with 3 enterprises, translating needs into 2 PRDs & a prioritized product roadmap for the extensibility platform
- Defined and launched ARC's extensibility platform (API, webhooks, SDK), enabling 3 major customers to build on ARC
- Scoped and shipped product packaging with a 6-person engineering team, writing requirements and prioritizing backlog grooming cycles
- Built a MySQL database to track investor communication pipeline, informing weekly product iteration decisions

Zhol **Astana, Kazakhstan**

Founder *April 2026 – June 2026*

- Built and shipped a B2B logistics marketplace connecting Kazakhstani shippers and carriers broker-free in 14 days
- Ran end-to-end customer development: 500 cold emails and 10 in-person interviews across 3 cities, converting insights into shipped features same-day
- Closed the platform's first live transaction, brokering a logistics deal at 50% better terms than the carrier's prior rate
- Tracked users via PostHog and produced a competitive benchmark analysis to guide the product roadmap

San Francisco Municipal Transportation Agency (SFMTA) **San Francisco, CA**

Technical Product Manager Intern *October 2025 – April 2026*

- Led a 6-person cross-functional team designing and pitching MuniForPublic, a free-transit proposal, to the SFMTA
- Translated a 4-step AI pipeline into product layers for 3 distinct audiences (technical, policy, general public)

Minerva University **San Francisco, CA**

Project Manager Intern *September 2025 – April 2026*

- Delivered career Handshake AI opportunities to 800+ students and alumni across multiple cohorts
- Sourced and vetted 60+ third-party partner events per month in Notion, maintaining central partnerships database

Baiterek Investment Holding **Astana, Kazakhstan**

Investment Analyst Intern *June 2025 – August 2025*

- Built a trade-prioritization model in Excel across 120+ HS-code datasets, surfacing $40M in untapped revenue across 4 markets and driving immediate strategic adoption by leadership
- Synthesized internal reports within 24 hours into board-level trade analyses, visualized in PowerPoint and Canva

Saigas **Astana, Kazakhstan**

Founder *September 2024 – June 2025*

- Raised $2000 as a finalist at the Samsung Solve for Tomorrow & Gold at Infomatrix Asia 2025
- Arranged 2 site visits to Kazakhstan's largest Natural Reserve and established partnerships with Kazakh Agro-Tech Research University and the Ministry of Ecology to inform product development

PROJECTS & LEADERSHIP

Central Asia Trade Compliance Agent *March 2026*

- AI agent that parses Central Asian trade regulations and flags compliance issues for cross-border freight; deployed live at Agenthon 001 (Top 5/100). Used UN Comtrade datasets from 5 Silk Road markets

Memoru *March 2026*

- AI-powered personal CRM for tracking people met at events, context, and follow-ups. Built and deployed in a weekend
